

### REMARKS

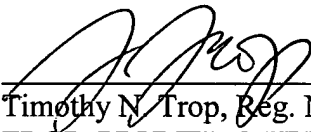

Depending claims have been rejected over a combination of the published patent application to Xu in view of another reference. The present application and the reference were, at the time the invention was made, owned by, or subject to an obligation of assignment to, the same entity.

Therefore, the Section 103 rejection should be reconsidered.

In view of these remarks, the application is now in condition for allowance and the Examiner's prompt action in accordance therewith is respectfully requested.

Respectfully submitted,

Date: January 22, 2004
